
STUDIUL DESCRIPTIV PRIVIND PRINCIPALELE CARACTERISTICI ALE CERERII PE PIAȚA EVALUĂRII BUNURILOR MOBILE DIN ROMÂNIA

DESCRIPTIVE SURVEY REGARDING THE DEMAND ON THE ROMANIAN PLANT AND MACHINERY VALUATION MARKET

Conf.dr. Sorin Adrian ACHIM
Universitatea „Babeș-Bolyai” din Cluj-Napoca

Abstract: This paper presents a descriptive study facing two directions: one regarding the legal registration form and the field of activity of the clients whose plant or machinery were subjected to valuation and the goals of the valuation and the other one regarding the main features of the mobile goods subjects of the valuation and value established for those mobile goods. The conclusions of this study are based on the answers obtained from 104 Romanian valuers members of The National Association of Authorised Romanian Valuers (ANEVAR) and specialised in plant and machinery valuation. In the paper are presented the obtained results and are synthesized the main conclusions arising from the answers of the respondents.

Keywords: plant and machinery valuation, descriptive survey, clients, goals, mobile goods' features.
